

DELIVERING MEASURED CONFIDENCE FROM PIT TO PORT

Control Systems Technology (CST) delivers precision belt weighing systems that provide accuracy and reliability at every stage of the bulk material handling journey, from production at the mine to final loading at the port. With over 40 years of engineering expertise and the world's only belt scales backed by an **accuracy guarantee**, CST ensures every tonne is measured with confidence and integrity.

Engineered to perform in the toughest conditions, our systems support efficient, traceable and compliant operations from extraction to export. With full lifecycle support spanning commissioning, maintenance and upgrades, CST's extensive global service team keeps your systems performing at their best, wherever you operate.

FROM PIT

ENGINEERED FOR PERFORMANCE

Designed to maximise efficiency and productivity in demanding mining environments.

BUILT FOR HARSH CONDITIONS

Proven to withstand heat, dust, vibration and extreme loads with durable, application-engineered construction.

SMARTER DECISION-MAKING

Real-time diagnostics and data visibility help operators respond quickly and confidently.

MINIMAL DOWNTIME

Long calibration stability and robust components reduce maintenance and keep operations moving.

TO PORT

LEGAL-FOR-TRADE ACCURACY

Certified systems that meet international trade standards, supported by local expertise to ensure compliance with regional regulations and verified results.

CONFIDENCE IN EVERY TRANSACTION

Trusted weighing that stands up to inspection, audit and commercial scrutiny.

TRANSPARENT AND RELIABLE

Clear, consistent measurement that helps minimise disputes and protect relationships.

OPTIMISED CONTROL

Accurate loading and export data that ensures maximum value from every shipment.

CONTROL SYSTEMS TECHNOLOGY

PARTNER WITH THE BELT WEIGHING SPECIALISTS

CST sets the global standard for belt weighing, combining engineering ingenuity, integrity and innovation, so you can trust the truth your scales tell.

SERVICES WORLDWIDE

Control Systems Technology service all brands of belt weighers at sites all over Australia and globally.

Service Bases:

- **Australia** (Perth, Mackay, Hunter Valley)
- **Africa** (Remote Support)
- **Chile**
- **Peru**
- **Canada** (Vancouver)

Well trained technicians provide thorough recalibrations, trade verifications, audits and repairs to ensure equipment is performing as it should and to confirm the results are accurate.
